EXPERIENCE

CliQ India **August 2025 – Present**
Flutter App Development Intern *Noida, Uttar Pradesh*

- Built responsive mobile app interfaces for **PanditJee** using **Flutter** and **Dart**, creating custom widgets and managing app state to deliver a smooth user experience on both Android and iOS devices.
- Connected **Flutter** mobile frontend with **Java Spring Boot** backend through **RESTful APIs**, implementing secure authentication, error handling, and real-time data updates for reliable app functionality.
- Developed backend services with **Java Spring Boot**, creating **REST API** endpoints to handle client requests, validate data inputs, and execute business logic for various application features.
- Designed and managed **PostgreSQL** database, creating efficient table structures, writing SQL queries, and using JPA repositories to store and retrieve application data effectively.

Amilo AI **April 2024 – June 2024**
Web Developer Intern *Remote*

- Led frontend development using **React.js**, **Redux**, and **Tailwind CSS**, implementing reusable components that improved user engagement by 30%.
- Collaborated with cross-functional teams to integrate APIs and optimize UI rendering, reducing development time by 20%.

PROJECTS

Real-Time Chat Application ⬀ | **MERN Stack**, **Socket.io**, **Zustand**, **Tailwind CSS**, **DaisyUI** **Sept 2025**

- Built a real-time chat application using the **MERN stack** MongoDB , Express.js , React.js ,Node.js with **Socket.io** for live messaging and **Zustand** for efficient state management.
- Implemented **JSON Web Token (JWT)** authentication and online user tracking, enhancing security and improving user experience.
- Deployed the application on Render with a fully responsive UI built using **Tailwind CSS** and **DaisyUI**.

Minimalist Dashboard ⬀ | **React.js**, **Tailwind CSS**, **Node.js**, **Express.js** **Jan 2025**

- Designed and developed a responsive admin dashboard using **React.js** and **Tailwind CSS** for seamless front-end performance.
- Built **RESTful API** endpoints using **Node.js** and **Express.js** to manage backend data efficiently.
- Focused on modular component structure and reusable code for scalability and maintainability.

EDUCATION

Vivekananda Institute of Professional Studies - Technical Campus **2021 – 2025**
B.Tech *IPU*

TECHNICAL SKILLS

Languages: C++, Python, Java, **JavaScript**, **Dart**, SQL
Front-End: HTML, **CSS**, **Tailwind CSS**, **ReactJS**, **Redux**, **Flutter**
Back-End: **NodeJS**, **ExpressJS**, Spring Boot
Databases: **MongoDB**, **PostgreSQL**, MySQL, Firebase
Tools: Git, GitHub, Postman, VS Code, Android Studio, Thunder Client
Coursework: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming (OOPs)
Familiar With: System Design (Basics), Software Design Patterns (Basics), **RESTful APIs**

ACHIEVEMENTS

- Career Essentials in System Administration by Microsoft and LinkedIn
- Solved 300 Questions on Coding platforms like **Leetcode** ⬀ , **GeekforGeeks** ⬀ and **Codechef** ⬀
